

SINGLE & LOVING IT!

The City of Memphis
is transitioning to
single-stream recycling!

That means recycling just got easier for you.

Single stream recycling means that you will receive a new 96-gallon recycling cart, and all of your paper, cardboard, metal cans, plastic containers, and glass bottles go right inside. No more sorting, no more hassle, no more heavy bins to carry. Just wheel it to the curb, and we'll handle the rest. Living the single life has never been easier!

Go to **MemphisRecycles.com** to learn about our residential recycling program and when single stream recycling is coming to your area.

**recycle
Memphis**
It all revolves around you.
